B.Tech Information Technology Student | Java | Python | SQL | React | Spring Boot | MySQL
Coimbatore, Tamil Nadu | +91 9361177187 | ruthra1645@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

B.Tech Information Technology student with hands-on software development and software engineering experience across Java, Spring Boot, React, and MySQL, and a Full Stack Java training internship at Ether Services. Has built REST APIs, integrated third-party APIs, worked across both frontend and backend layers, and applied data structures, OOP, and problem-solving skills through Git-based workflows, debugging, and consistent coding practice — with a growing focus on backend and full-stack web development.

EDUCATION

B.Tech, Information Technology — Sri Krishna College of Technology 2024 – 2028
CGPA: 8.03/10
HSC — Cheran Matric Hr. Sec. School (2024) | 84% • SSLC — Cheran Matric Hr. Sec. School (2022) | 83%

TECHNICAL SKILLS

Languages: Java, Python, C, SQL, JavaScript

Frontend: React, HTML, CSS, Bootstrap

Backend: Spring Boot, REST APIs, Node.js, Gemini API, Hugging Face

Database: MySQL, SQL, PostgreSQL, Database Design, CRUD Operations

Tools & Deployment: Git, GitHub, IntelliJ IDEA, VS Code, Maven, Vercel, Netlify, Cloudflare

Core CS: Data Structures, Algorithms, Object-Oriented Programming (OOP), DBMS, Agile Development, Unit Testing, Problem Solving, API Integration, Debugging

EXPERIENCE

Full Stack Java Intern — Ether Services, Coimbatore Apr 2026 – Jun 2026

- Completed an intensive 5-week Full Stack Java training program focused on Spring Boot and MySQL, covering backend development, database design, and REST API fundamentals.
- Rated Excellent overall for performance and technical proficiency throughout the internship.

PROJECTS

ExplainFirst — AI Learning Evaluation Platform

- Built an AI-powered platform using the Gemini API to evaluate student explanations and deliver instant feedback.
- Designed and developed 10+ RESTful API endpoints in Spring Boot with a React frontend, following Agile sprints and Git version control.

HomeFlame — Full Stack Web Application

- Built a full-stack web application end-to-end using Java, Spring Boot, MySQL, and React, supporting 5+ core modules with CRUD functionality.
- Implemented REST APIs and unit-tested business logic, streamlining manual data-entry workflows for end users.

SHIELD — Secure Web Platform

- Built a secure authentication-based web platform with JWT login, implementing role-based access control (RBAC) for authorization across 2 user roles.
- Implemented backend services in Spring Boot with secure access control, following Git-based version control and code review practices.

ACHIEVEMENTS

- Solved 256+ coding problems with a 226-day active streak on LeetCode
- Achieved 4-Star Gold on HackerRank, with 4-star ratings in Java and Problem Solving, and a 3-star rating in SQL

CERTIFICATIONS

- IBM Java Developer Professional Certificate — Coursera
- Crash Course on Python — Google
- SQL: A Practical Introduction for Querying Databases — IBM
- AWS Cloud Practitioner Essentials — AWS

HACKATHONS & PARTICIPATION

- DevHack 2026 Hackathon — Sri Krishna College of Technology — Team Lead (leadership, team collaboration)
- Web & App Showcase — Sri Krishna College of Technology — Team Lead, coordinating web development and collaboration
- Smart India Hackathon (SIH) 2025 — Participant
